

## **SAMPLE SCIENCE PROJECT IDEAS**

### **Popular Topics**

1. How does the type of fertilizer affect plant growth?
2. How does the amount of water affect plant growth?
3. How does the amount of water affect seed germination?
4. How does the amount of light affect plant growth?
5. How does the color of light affect plant growth?
6. Which paper towel is the strongest?
7. Which paper towel absorbs the most water?
8. Which popcorn pops the most kernels?
9. How is bread mold growth affected by light?
10. How is bread mold growth affected by temperature?
11. How is battery life affected by temperature?
12. How is magnet strength affected by temperature?
13. What are the effects of different colors on comprehension?  
(requires extra paperwork for 6-12th grade)
14. Does repeating an activity help you perform it better? (requires extra paper work for 6-12th grade.)
15. What affects the browning of apples?
16. What are the effects of vitamin A on earthworms?
17. Which fruit juice contains the most vitamin C?
18. What percentage of seeds sprout from different storage conditions?
19. How does cost relate to the effectiveness of shampoo?
20. Which liquids form a gas when combined with baking soda?
21. Does a computer monitor cause interference to radio waves of nearby electronic devices?
22. What effect do weather conditions have on radio frequencies?
23. Which soil type has the most effect from water erosion?
24. Which commercial station has the most accurate weather forecasts?
25. What airplane type has the least drag?
26. Which type of bridge construction supports the most weight?
27. Does strength vary for different concrete mixes?
28. Which type of material keeps heat in the longest?
29. What is the effect of treated waste water on the heart rate of Daphnia?
